Dear Parents,

A special welcome to our new Summer Adventure students, and as always, welcome back to our returning students! What an awesome and exciting summer it was last year. It was the largest group of students ever to take part in Summer Adventure. For over 20 years, the Ridgewood Community School has sponsored the Summer Adventure program and we look forward to yet another great summer. Teachers and staff within the Ridgewood School District (and beyond) have worked hard to establish fun and engaging classes that will challenge and excite students throughout the summer term. The course catalog is aimed at offering a diverse selection of classes that enables every student to find a class that will appeal to his or her interests. We hope that you will take a close look at the course catalog and join us this summer! If you have any questions, please do not hesitate to contact me at 201-670-2800 x20746, or Ridgewood Community School at 201-670-2777.

We look forward to seeing you this summer!

Doug Aday, M. Ed., M.S. Special Education, Summer Adventure Principal

Amazing Animation Gr. 3-5

Campers will learn about the art of animation! They will design and create stop motion animations and learn how to use video editing software to create really awesome animations.

Animals & Pet Care

Gr. K-2 & 3-5

Do you like animals? Would you like to learn how to take care of different pets? If you answered YES, come join us. Each few days we will learn about a different animal and how to take care of them. Some of the animals that you will meet, care for and learn about are bunnies, fish, guinea pigs, and maybe even ducklings.

Backyard Baseball Gr. 3-5

Students will learn basic baseball/softball skills and fundamentals. They will participate in wiffleball games, kickball games, running bases and stickball tournaments throughout the 2 weeks.

Backyard Games

Gr. K-2 & 3-5

Students in this course will be introduced to a variety of games that are usually played outside in someone's backyard. Students will need to use strategy and skill to be successful. Examples of lawn games include, ladder ball, can jam, bocce, and ring toss.

Best Ball Games Gr. K-2

This class will incorporate all of the best physical education ball games. Students will dribble, volley, pass, shoot, toss and throw. All activities will be developmentally appropriate with a primary focus on improving fine and gross motor skills.

Bird Nerd Gr. K-2 & 3-5

In this class, campers will become expert observers. They will use their senses to discover

birds in their surrounding environments and will keep a journal to record their discoveries. They will listen to bird sounds, have scavenger hunts and learn all about birds and bird anatomy.

Book Folding Gr. 3-5

Turn old books into personalized 3-D art. Students will leave the class with at least one book folded into a specific pattern. This is not a reading class! Come find a new way to love and re-use old books.

Bowling Gr. K-2

This class will introduce students to the basics of bowling. It's never too early to learn how to properly hold and roll a bowling ball. Students will leave the course with a practice packet, which will allow them to continue to work on their technique even after the course has ended.

Bubble Blast Gr. K-2

If you enjoy blowing and popping bubbles, then this is the course for you! We will learn the history of bubbles while we create bubble solutions, learn bubble recipes,

make giant bubbles, and play bubble games. We will also complete many science activities revolving around water.

Budgets R Us Gr. 3-5

Students will learn what it is like to earn and spend money by entering the real world. This class will teach them how to budget the amount of money they make. They will learn the difference between needs and wants by analyzing how much everyday items cost.

Building Bonanza Gr. K-2

Calling all future engineers! This exciting program features structured play with Legos, K'NEX, Zomes, basic blocks, and more. Kids will learn communication skills and teamwork, and are encouraged to think outside the box when solving problems. Students will have tons of fun reaching for the sky!

Cake Decorating & Candy Making Gr. 3-5

Students will learn the basics of cake decorating and making candy using various decorating tips, playing with color, making a variety of designs and more.

Calligraphy Gr. 3-5

Learn how to write free-style calligraphy and how to create your own style of letter writing. We will make cards, signs and framed pieces.

Camp Discovery Gr. Pre-K

This fun camp offers age-appropriate activities in a school setting. Programs focus on building social and motor skills while having fun. Indoor and outdoor spaces will be used and activities will include story time, outdoor games, science activities, computer labs, and more!

Cartooning Gr. 3-5

Students will learn to draw various cartoon characters. They will choose characters to learn to draw, and will also learn to design and create their own cartoon characters.

Chess Gr. K-2 & 3-5

Students will be introduced to chess in a fun and motivating way. Students are learning the games without even knowing they are

learning. They will be solving puzzles and developing the strategies to win the games.

Clay Creations Gr. 3-5

Journey into clay sculpture building by creating dragons, gnomes, unicorns, fairies and more. Using basic hand building techniques, students will create creatures from books or their imaginations and decorate them using ceramic glazes.

Clay Creatures Gr. K-2

Students will learn basic hand-building techniques with clay. We will start with pinching, coil-making, and simple joining techniques. Students will create various creatures from their imaginations and decorate them using glazes.

Color Wonder Art Gr. K-2 & 3-5

Explore the wonder of colors with fun projects in a range of different medium. Younger students will experiment with bubble color, spin art, and string painting. Older students will try scratch art, chalk marbling, sandpaper crayon melts and more.

Comic Book Creation

Gr. 3-5

Create your very own comic book! You will get the chance to develop new and interesting characters, and place them in adventurous story lines. You'll learn simple techniques to help you sketch your characters in detail. You'll spend the first two days of class using well-known comics to understand how professional authors develop their characters and storylines.

Computer Camp Gr. K-2

Campers will learn valuable technology skills in a way that is fun.

They will practice their keyboarding skills and will learn how to use different programs like MS Word, Garage Band, iPhoto, Pages, Keynote and Power Point. A basic tutorial of iMovie will also be given. In addition, students will also be taught how to locate & play some safe, interactive educational games.

Cooking Around the World

Gr. K-2

Students will research countries and their cuisines and then cook a special dish from that country – like pasta from Italy, crepes from France and scones from England. Each country will earn them a stamp in their food passport. Please add a **\$10 food fee** to the price of this class.

Crazy Fun Art Gr. K-2

We will explore mixed media such as silly string, silly putty, slime painting, hand painting and also puppets and masks to free our imaginations. We will also learn about artists from around the world who use materials like bottle caps and shells to make art. Bring a smock – this could get messy.

Creative Crafting Gr. K-2

This class is for the student who likes to make things. Students will make small gifts to share with family and friends. They will be working hands-on to design and create things to share with others.

Creepy Crawlies

Gr. K-2

Entomology for children! Hands-on science projects like making model worms and butterflies out of art materials, plus observations of live ants, worms, caterpillars and other harmless bugs and insects. We will learn how insects are important to our ecosystem, including bees, and how to be kind and smart young scientists.

Cruise into... Gr. Pre-K

These classes offer afternoon enrichment activities in specific subject areas for pre-k students. Classes will include exploration in topics like science, creativity, stories and games. Activities will include kitchen experiments, arts & crafts, fairy tales and movement.

Cruise into Kindergarten

Gr. Pre-K

This pre-K readiness adventure is for students entering Kindergarten in September. Through a variety of age appropriate activities, your child will refine and develop skills necessary for success in the fall. Activities will appeal to all types of learners.

Dance & Fitness Gr. K-2 & 3-5

Students will learn popular line dances and original combinations. The class will incorporate typical dance moves as well as Zumba fitness moves. Students will use creativity to design their own dances and steps. Come have fun and bust a move!

Dazzling Designs Gr.3-5

Do you like to be creative, unique and imaginative? Do you like to design and sketch? Come and learn about different types of designers, such as fashion designers, interior designers, and advertisers. Use your imagination and originality to create and sketch out your own models for a clothing line and more.

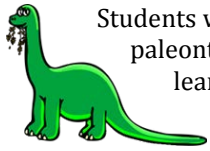

Design a Video Game & Controller Gr.3-5

Students will design a controller with the program Makey Makey and then design their own video game using Scratch. They can then play their game with the controller they made themselves.

Dinosaurs & Other Fossils

Gr. K-2

Students will become paleontologists as they learn everything there is to know about

dinosaurs. Using books, videos, and activities, the students will learn about the dinos that roamed the earth in the Jurassic period. They will add pages to their Dinosaur Journal, dig for dinosaur bones, and learn about other fossils.

Disney & Pixar Gr. K-2 & 3-5

Do you love Disney? In this class we will make crafts, sing songs, play games, read stories and play make-believe all having to do with Disney and Pixar movies. Students will learn secret facts about the movies and learn about the characters and their stories.

Dynamite PE Gr. K-2

This class will have it all! Games, exercise, skill development and most importantly...FUN! All activities will be movement based with a purpose of developing skills and building positive relationships. Activities will include innovative tag, sports and cooperative games.

Engineering Gr.3-5

Do you enjoy building things, being a problem solver, figuring out how things work and using your creativity to put it all together? Join us as we bring together elements of science, technology, engineering, and math in a fun and challenging way. This hands-on class allows you to test out theories while learning the science behind them.

Escape Classroom Gr.3-5

This class involves creating and completing adventure games in which players solve a series of puzzles and riddles using clues, hints and strategies to complete the objectives at hand.

Everything Emoji Gr. K-2

Campers will be making emoji themed crafts and treats on a daily basis! Pillows, pencil cups and rice crispy treats are just a few examples. Pick your favorite emoji to showcase or pick a new one each day!

Fairy Tales in the Kitchen

Gr. K-2

Students will read different fairy tales and make foods that are related to the stories. Examples include: make Cinderella's glass slippers and pumpkins out of sugar cookies, fill baskets with baked goodies for Red Riding Hood, create a gingerbread house for Gretel, use pretzels, pasta, and Hershey chocolate bars to make the Three Pigs houses, make the gingerbread man, and cupcakes that look like frogs for the Frog Prince. Please add a **\$10 food fee** to the price of this class.

Flag Football Gr. 3-5

The fundamentals of flag football will be taught in a progressive manner. Students will participate in drills and games and will be taught the benefits of living a healthy active lifestyle. They will be taught how to take their heart rate, how to identify a "healthy fitness zone" and will participate in at least 60 minutes of cardio exercise per day.

Forensic Files Gr. 3-5

Scientists will learn how to enhance their detective skills throughout this course by solving a series of different mysteries. Various problem-solving techniques will be utilized during the course. Students will be given the chance to create their own mysteries, learn how to dust for fingerprints, and follow the trail of clues to solve the cases.

Forest Friends Gr. K-2

Become an ambassador for our forests.

Learn about forest animals and the

place they call home. Students will learn about food webs, animal life, why trees are so important and more. They will be engaged with daily crafts, scavenger hunts, puzzles and will even create a 3-D diorama.

GaGa Gr. K-2 & 3-5

Gaga is a fast-paced game played inside a "Gaga" pit. The objective of the game is to strike a soft skin ball against another player below the knees. There are many variations of this exciting game. Gaga combines dodging, striking, running and jumping all in one game!

Games, Games & More Games Gr. K-2 & 3-5

Students will play a variety of games including board games, dice games and problem solving games.

Get Puzzled Gr.K-2

In this class, students will have to solve all kinds of puzzles each day. The puzzles will reveal different activities they will do that day or special treats they will eat. They will have riddles to solve, jigsaw puzzles, scrambled words, mystery messages and more.

Glee Gr.3-5

Do you like to perform? Sing? Act? Or do you just love music and want to be around fellow music lovers? Students will be involved in all aspects of the show from selecting the songs, choreographing, writing the script, and even tie-dyeing the shirt you will perform in at the end of the session.

Glue It

Gr. K-2

Campers will be involved in daily craft projects involving glue. Some examples are sun catchers, silly putty, coasters, glue paint, and a batik fabric project. The children will use their creativity and come home with some amazing projects that you can display for years to come.

Going Google

Gr. 3-5

Students will explore the world of Google Drive, Google Drawing, Google Slides, Google Forms and so much more on Chromebooks. They will understand the ins and outs of using the Chrome browser and learn how to find good apps. The Google world is endless.

Golf for Beginners

Gr. 3-5

Students will be taught the game of golf in a progressive and interactive manner. Students will perform the three basic swings of golf: driving, chipping and putting. Students will spend the first week learning and practicing the swings. The second week will consist of the Summer Adventure Golf Classic where students will participate in a week long tournament.

Goop, Slime & Bath Fizzies

Gr. K-2 & 3-5

We will make fluffy slime, crunchy slime, bath fizzies and even silly putty. You will get to add your own creative twists to the projects that are sure to provide hours of fun when you take home your goop! We will also have fun playing games and doing other projects.

Greek Mythology

Gr. 3-5

Students will learn all about the myths and legends of the Greeks – Gods, Goddesses, Heroes, Mount Olympus, the Underworld, and creatures like Cyclops and Medusa! Children will create dioramas, taste Ancient Greek foods, and drink Medusa punch. Finally, students will create a labyrinth, Medusa stone statues, and Zeus lightning bolts.

Gymnastics

Gr. K-2

This class is the perfect way for your child to develop confidence and self-esteem through body movement! We will begin with a warm up sequence that will promote strength and flexibility. Then, the students will learn about gymnastics and will develop coordination and body awareness. Through posture, balance, coordination and strength, children release energy and have fun doing it.

Hands-on Science

Gr.3-5

We will study the science of bubbles, and wonder “what’s in the bag” as we learn about the scientific method, study dinosaurs and make paper mache models of the solar system. This course

encourages natural curiosity and imagination.

Hockey

Gr. K-2 & 3-5

Learn basic & advanced hockey skills. Play floor hockey, table hockey and maybe even roller hockey. We will discuss NHL teams and players as well as Team USA. Hockey books, videos & artwork/crafts will also be incorporated.

How to Survive & Thrive in Middle School

Gr. 3-5

Students will learn what they need to know to be successful during the important transition to middle school. This class has a holistic approach to helping students take on and be successful in day-to-day

and social challenges. Guidance will be provided in: social media interactions, positive methods to deal with stress, building healthy relationships, fostering independence, confidence and more. This class is designed for children entering 6th grade but is open to 4th & 5th graders also.

Intro to PE

Gr. K-2 & 3-5

This is an exploratory class in which students will be introduced to a variety of popular physical education equipment. The class will be a mix of recess, PE and your imagination. Students will get safe free-time to explore the equipment and will learn how to use it properly. This class is only offered for one week - Session 3, week 6.

It's a Zoo in Here!

Gr. K-2

Learn about the animals you see when you visit the zoo. This arts and crafts class will focus entirely on animals. Students will create all kinds of fun projects about different types of animals. Projects will include masks, puppets and much more.

It's National ____ Day

Gr. K-2

Did you know that June 26th is National Chocolate Pudding Day? And how cool is it that June 27th is National Sunglasses Day? Celebrate fun “National Holidays” with foods, games, activities & arts and crafts.

Jewelry Making

Gr. K-2 & 3-5

Students will create a variety of one-of-a-kind jewelry and accessories using an assortment of tools and strategies. The class will use beads, yarn, clay, string, and fabrics to make a complete jewelry and accessory collection. Students will leave the class with a compilation of handcrafted jewelry/accessories, and a jewelry box they created to hold them.

Kid Chefs

Gr. 3-5

Kids will make simple dishes from start to finish, then sample and critique them. We will cover many favorites, such as chocolate making, dips and dressings, and pizza. Kids will decorate their own aprons and have a yummy time! Please add a **\$10 food fee** to the price of this class.

Kids in the Kitchen

Gr. K-2 & 3-5

This hands-on cooking adventure will focus on recipes that kids can make for themselves and their families. They will have fun cooking while also learning math through measurements and portion sizes. We will focus on health and nutrition as we make healthy and well-balanced foods. The students will also create a keepsake book of recipes throughout the class. Please add a **\$10 food fee** to the price of this class.

Kindness Club

Gr.3-5

Treating others the way you want to be treated is the Golden Rule.

This class will include doing good deeds for family, friends, and the community. Activities include making cards for local nursing homes/hospitals, random acts of kindness in the school, and spreading the word about kindness with posters and crafts. We will also discuss teamwork and good sportsmanship as it relates to games and winning vs. losing.

Kitchen Science

Gr. K-2 & 3-5

This course will open your child's eyes to the exciting world of science using everyday items found in the kitchen! Students will create things like slime and rubber eggs, as well as learn how and why different things work. Come explore science in a safe, new, and exciting way.

Le Francais Superbe Gr. K-2

Young children will learn French in an immersion program which includes cooking, songs, crafts, holidays, le monde francophone including West Africa and Haiti, and French history such as Le Chateau de Versailles. This class will be

taught in a fun way that is appropriate for early childhood.

Maker Space Gr.K-2 & 3-5

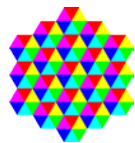

A Makerspace is a place where students can gather to create, invent, tinker, explore and discover using a variety of tools and materials. Campers will use their creativity to build prototypes, explore questions, fail and retry, bounce ideas off one another and build something together. The possibilities are endless because it's the camper that makes something out of nothing!

MathART

Gr. 3-5

In this unique class, students will express their creativity while crafting projects that make a natural connection between math and art. Students will make "stained glass windows," tessellations, and explore the art of Piet Mondrian to explore geometry. They will also do projects involving number sense, measurement, patterns, symmetry, and more.

Mathematics Concepts K-5

This course will offer a review of basic math concepts for each grade. Instruction will be enriched with hands-on experiences, games, and strategies in a fun-filled environment designed to strengthen mathematical knowledge and expand mathematical competency. Please register by **grade finished in June 2019**.

Math in the Kitchen Gr. K-2

This class will introduce young bakers to fractions! We will discuss fractions, decimals and measuring while whipping up some tasty treats. Who knew math could be so delicious? Please add a **\$10 food fee** to the price of this class.

More Super Science Gr. K-2

Why do some objects float while others sink? Can we change the color of a flower?

Can we use a magnet to make a paperclip float?

This course is designed to work with the original Super Science class. This course can be taken before, after, or in conjunction with Super Science.

Mosaics

Gr. K-2 & 3-5

Bring your creativity and your love of color. Children will work with paper, foam and other materials to create unique mosaic masterpieces. Most projects will be centered around nature, animals or geometric designs – but the sky is the limit. Older students will use additional materials like buttons and glass pieces.

Movie Making

Gr. 3-5

Have you ever wanted to make your own movie? Students in this class will learn how to make a movie from start to finish – shooting video footage, still photos, and their own created music. Students can decide to create a music video, commercial, personal documentary... the sky's the limit!

Muggles at Hogwarts

Gr. K-2 & 3-5

Students are invited to attend Hogwarts and learn about subjects described in the Harry Potter series. Students will attend Astronomy, Arithmancy, Divination, and Potions classes. In addition, students will be given the opportunity to compete in various house cup challenges, and earn points for their desired house.

News Broadcasting Gr. 3-5

Calling all future reporters, news writers, directors, and producers! Summer Adventure will have its very own news station! Campers will learn what it takes to make a network tick behind-the-scenes. Creating and hosting a newscast provides a wealth of practical hands-on experience. Students will write their own scripts, film, and edit clips, culminating in one complete show.

No Batteries Required Gr. K-2

Learn board games, card games, and jigsaw puzzles. Each day will feature a new game. This class will help with following directions, taking turns, sharing, and learning to win or lose but still enjoy playing. Can we finish a puzzle in two weeks?

Outdoor Adventure Gr. 3-5

Join us on an adventure to a bygone era where kids used the world around them as their playground. Students will disconnect from technology and connect with nature. Each session will feature a mix of creative outdoor play and scientific exploration.

Outdoor Games - Sports Gr. K-2 & 3-5

What a way to enjoy the summer! Participants will enjoy playing games, keeping fit, and learning the rules for kickball, tag, volleyball, and other fun summer sporty games!

Pack Your Bags Gr. K-2

Take out your passport and grab your map! We will explore a new country every day. Students will travel the world and learn about the country at each stop. We will explore history, listen to music, sample cuisines, create hands-on projects and learn fun facts.

Painting Gr. K-2 & 3-5

Students will learn basic painting skills and fine art techniques through a fun approach. In K-2, the focus will be on faces and everyday objects. With grades 3-5, the focus will be on still-life and land/sea and cityscapes. Students will be exposed to various genres and art styles and will learn to appreciate paintings of artists from around the globe. They will also develop confidence in painting.

Peaceful Yoga Gr. K-2 & 3-5

This class is Karma Kids style and is fun! We pretend we are animals as we learn asanas, act out musical stories, practice concentration with bells and feathers, and teamwork with yoga games. Yoga encourages self-confidence, flexibility, strength and kindness. We will also do breathing exercises and meditation.

Photography and Design Gr. K-2 & 3-5

Young photographers will learn the art of taking pictures through hands-on experience. Students will be venturing out of the classroom with digital cameras to practice their new found skills taking pictures. Older children will learn to use Photoshop for designing and editing their images. Cameras will be available for students, but they can also bring their own.

Pirates Ahoy! Gr. K-2

Come aboard and go on adventures inspired by pirates. Arts & crafts and games will be included each day. Students will use a treasure map to follow clues to find a hidden treasure and walk the plank.

Reader's Theatre

Gr. K-2 & 3-5

This course will offer a fun and relaxed way of practicing reading fluency and speaking skills, and build confidence by performing stories and Fairy Tales. Read alouds will familiarize students with plot, then we will assign roles, create minimal props, and practice reading/acting out stories with expression. We begin a play on Monday and wrap it up on Friday.

Reading/Writing Workshop Gr. K-5

This unique reading/writing program is open to students of all abilities. The format will be similar to the Teachers College Reading and Writing Workshop. Emphasis is placed on the acquisition of reading/writing skills. The program is designed to maintain, strengthen and expand these important skills. Please register by **grade finished in June 2019**.

Recycled Art Gr. K-2 & 3-5

We will create great art by using things that are getting recycled. Students will be able to show their creative sides in this fun course!

Sewing Gr. K-2 & 3-5

Students will learn the basics of sewing buttons, cross stitching, and simple embroidery with projects of their own choosing. Examples include: holiday decorations, lavender bags, felt heart, stars or smiley faces with buttons, felt monsters, mini-pillows and more.

Shakespeare - Will Power Gr. 3-5

Students will learn improv warm ups to get started and build confidence. We will create an ensemble and incorporate costumes into our scene study. Shakespearean vocabulary will be introduced as well as the Globe Theatre, and life in Victorian England. An edited version of A Midsummer Night's Dream will be performed at the end of class.

Shark Tank

Gr 3-5

During this "Shark Tank" inspired program, you will be creating a product that the world is missing. You will make a prototype of your product and come up with a plan to market your idea. At the end of the session, you will present your idea to the Sharks with the hope that one of them will invest in you.

Sign Language

Gr.K-2

Students will learn the basics of sign language as well as the signs for common words, letters, numbers and how to spell words. They will also learn some fun songs using sign language and will make a pack of sign language cards to take home.

Soccer Skills

Gr.K-2

Soccer skills and fundamentals will be taught during week 1. Students will participate in games and tournaments during the week 2.

Steam Lego Challenge

Gr K-2 & 3-5

Follow the instructions each day to take on a new challenge. The only rule is to have fun and use your imagination. Students will have the chance to become NASA scientists building their own rockets out of legos, engineers who build roller coasters, or set designers.

Storybook Steam

Gr. K-2

Do you love stories? Do you ever wonder how you could help the characters solve their problems? Join us as we go through different adventures using problem solving skills to build solutions to problems from famous stories.

Summer Crafts

Gr. K-2

This class allows children to tap into their inner artist. They will work on a variety of projects, including decorating flip flops, door hangers, picture frames, flower pots, rock pets, dream catchers and more.

Super Science

Gr. K-2

What is the inside of the Earth like? Where do rainbows come from? Young scientists will discover the answers to many questions. This course is filled with activities and experiments that are designed to encourage curiosity. Each day, your child will explore a different scientific concept as they hypothesize, mix, pour, compare, and observe.

Team Sports

Gr.3-5

This class will include a variety of team sports including basketball, football, pillow polo, Tchoukball and more. The purpose is to provide learning experiences that will lead to the development of skills in team sports.

Techno Mania

Gr.3-5

Campers will explore various technology applications that include Website Design, Coding, Digital Storybooks, CAD software, digital art and more.

Tennis

Gr. K-2 & 3-5

Students will learn how to hold a racquet, how to score and play games and different strokes. They will also learn basic skills needed to play tennis from serve to match point and will have fun while learning.

Under the Sea

Gr. K-2

Students will become immersed in Ocean Life. They will read engaging books, watch videos and work on creative, hands-on projects. We will discuss a variety of sea creatures including whales, dolphins, octopuses, and squid. We will also learn about coral reefs and the animals that live in them. By the end of the course, students will have a new appreciation for the ocean.

Wacky Water Adventures

Gr. 3-5

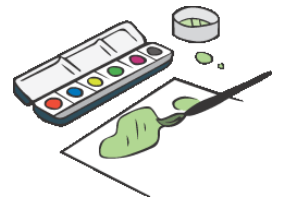

End the day with lots of water and fun! Water games such as sprinkler tag, water balloon relays and slip and slide kickball will be included. Bubbles, sponges and water gun bowling are just a few of the activities we will be doing. Pack a towel, and a bathing suit, or a change of clothes. We are going to get soaked!

Watercolors Wow

Gr. K-2 & 3-5

Calling all painters! Students will explore watercolor painting by experimenting with several basic techniques. Wet on wet painting, crayon resist, sponging and coloring to name a few. Older students will explore more advanced techniques and use tools including straw blowing, sgraffito, stippling, rubbing alcohol, toothbrush painting and more.

Woodworking Gr. K-2 & 3-5

Students will build a variety of projects out of wood including bird houses, stools and pencil boxes. They will then decorate their projects with paint and other objects. Most of the wood we will be working with will be repurposed from wood pallets.
